

Dr. Rath ImmunComplex *plus*

Reconstructive formula with cellular nutrients to support the immune system and cell protection

A well-functioning immune system is the cornerstone of health and vitality. It protects us from pathogens and toxins and is a valuable companion throughout our lives—if we support it.

The immune system consists of organs (bone marrow, thymus, spleen) and vascular systems, along with individual cells and proteins which—if properly coordinated—form natural barriers against intruders, detecting and destroying them.

A healthy and balanced diet is essential for a well-functioning immune system. It supplies our body with micronutrients, i.e. those

factors that support a variety of metabolic reactions for an effective immune response.

Dr. Rath ImmunComplex Plus has been developed at the Dr. Rath Research Institute as a reconstructive formula to support the immune system and offer cell protection. It combines high-quality vitamins and trace elements with a high content of biologically active plant substances from nutrient-rich plants and fruits. The latter includes white mulberry, ginger root, aronia berry, lychee fruit and sour cherry (CherryPURE®).

Contents of one capsule:

Vitamin C from:		
Ascorbic acid	200	mg
Vitamin E	15	mg
Vitamin B1	1,2	mg
Vitamin B2	1,3	mg

Ginger root powder	100	mg
Aaronia extract	100	mg
Lychee fruit extract	100	mg
Sour cherry extract (Cherry PURE®)	100	mg

TRAACS™ is a trademark of Albion Laboratories, Inc.
Cherry PURE® is a registered trademark of Shoreline Fruit, LLC

Reconstructive Formula

Dr. Rath ImmunComplex Plus contains selected micronutrients in a synergistic combination. This reconstructive formula has been developed to be combined with our range of basic formulas and enhances the nutrient supply with important factors to support immune system and offer cell protection.

Dr. Rath ImmunComplex Plus is a reconstructive formula in the Dr. Rath Cellular Nutrient Program. The cellular nutrients contained in this formula contribute to a comprehensive support of the immune system and cell protection.

- With vitamin B6, vitamin B12, vitamin C, folate (active form of folic acid), selenium and zinc to support normal functioning of the immune system
- With vitamin B2, vitamin C, vitamin E, selenium and zinc to protect the cells from oxidative stress
- With a high content of biologically active plant substances from nutrient-rich fruits and plants

Recommended allowance:

Adults: 1 capsule twice a day. Take at mealtimes with plenty of liquid (water, juice, tea).

Contents: 60 capsules* per container

Order No.: 045

* The capsule shell consists of hypromellose. Suitable for vegetarians.
